<b>Office Action Summary</b>	<b>Application No.</b> 10/823,410	<b>Applicant(s)</b> HADDOCK, ROBERT M.M.	
	<b>Examiner</b> William V. Gilbert	<b>Art Unit</b> 3635	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

This is a requirement for Election of Species. Claims 1-63 are pending.

***Election/Restrictions***

1. Claim 1 is generic to the following disclosed patentably distinct species:

Species I: Figure 4B  
Species II: Figure 5  
Species III: Figure 6  
Species IV: Figure 7  
Species V: Figure 8  
Species VI: Figure 9  
Species VII: Figure 10  
Species VIII: Figure 11

The species are independent or distinct because per Applicant's disclosure (pages 10, 11 of the specification) Applicant notes that each clip is a different embodiment. In particular regarding Species I, II and III, Species II has an insert disposed in the hollow portion of a rib and Species III has an attachment mounted to the clamp portion. Each of Species IV through VIII has a different attachment feature (e.g. Figs. 7

and 8, element 50; Fig. 9, element 50 and 96). Figures 10 and 11 show a completely different embodiment of the clamp in comparison to the previous species the clamp. In particular Fig. 10 is designed to accommodate a different shaped rib and Figure 11 shows the use of slots (76) in place of circular holes. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or

Art Unit: 3635

invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP §

Art Unit: 3635

808.02), restriction for examination purposes as indicated is proper.

### **Conclusion**

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William V. Gilbert whose telephone number is 571.272.9055. The examiner can normally be reached on Monday - Friday, 08:00 to 17:00 EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Chilcot can be reached on 571.272.6777. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
